The Rugged, Smartphone Charging Weather Alert Radio with Solar Power

eton
EMPOWERED BY NATURE

FRX4 S

READY FOR ANYTHING

This rugged[1], rechargeable weather alert radio is designed to keep you in the know, on the go—rain or shine. With a 1000mAh rechargeable lithium battery, large solar panel and hand turbine power generator, you'll never be out of touch or in the dark again.

ON ALERT

When the "Alert" function is on, the radio will automatically broadcast NOAA emergency weather alerts for your area such as hurricanes, tornadoes and severe storms.

LISTEN UP

This AM/FM/NOAA weather band radio keeps you in tune and up to date. The digital tuner and back-lit display make it easy to find and see your stations. In the mood to listen alone? Just plug in your favorite headphones.

1 MIN OF CRANKING = 10-15 MIN*
of music, weather, and news
*depends on radio volume

QUAD-POWER

The FRX4 S powers up in four fabulous ways—via solar panel, hand crank, built-in rechargeable lithium battery, or alkaline batteries.

- AM/FM and NOAA Weatherband Radio
- USB Smartphone Charger
- Solar Charging
- Crank Charging
- USB Charging
- Alkaline Battery Option
- LED Flashlight and Beacon
- NOAA Weather Alerts

The Rugged, Smartphone Charging Weather Alert Radio with Solar Power

ALL JUICED UP

Put the FRX4 S in the sun and the built-in solar panel will charge the battery fully in 3-4 hours. Crank the hand turbine for one minute and you'll produce enough power for 10-15 minutes of music, news and weather or four minutes of talk time. You can also use the micro-USB cable to fully charge the FRX4 S' built-in rechargeable battery in two hours or less.

SAY HELLO

To charge your smartphone, simply plug it into the 5V⎓1A USB port. Power will automatically "dump charge" to your phone, just like plugging into the wall. Fully charged the FRX4 S will provide a 50% charge to most smartphones.

BRIGHT STUFF

With its super bright LED flashlight with dimmer, red emergency beacon and the cool glow-in-the-dark locator, the FRX4 S will light up the night.

WEATHER OR NOT

The FRX4 S has an IPX4 splashproof rating[2] so neither sleet, nor snow, nor rain will hamper its performance. Ideal for camping trips or outdoor adventures.

FEATURES

- AM/FM/NOAA Weatherband
- NOAA Weather Alerts
- Digital display
- 1000mAh rechargable lithium battery
- 5V⎓1A USB output
- Hand crank power
- Rugged[1] and IPX4 splashproof[2]
- High efficiency solar panel
- Bright, long-lasting LED flashlight
- Red emergency beacon
- DC power input via included micro-USB cable
- Glow-in-the-dark locator
- Headphone jack
- 3-AAA battery option (not included)
